Busca Vidas

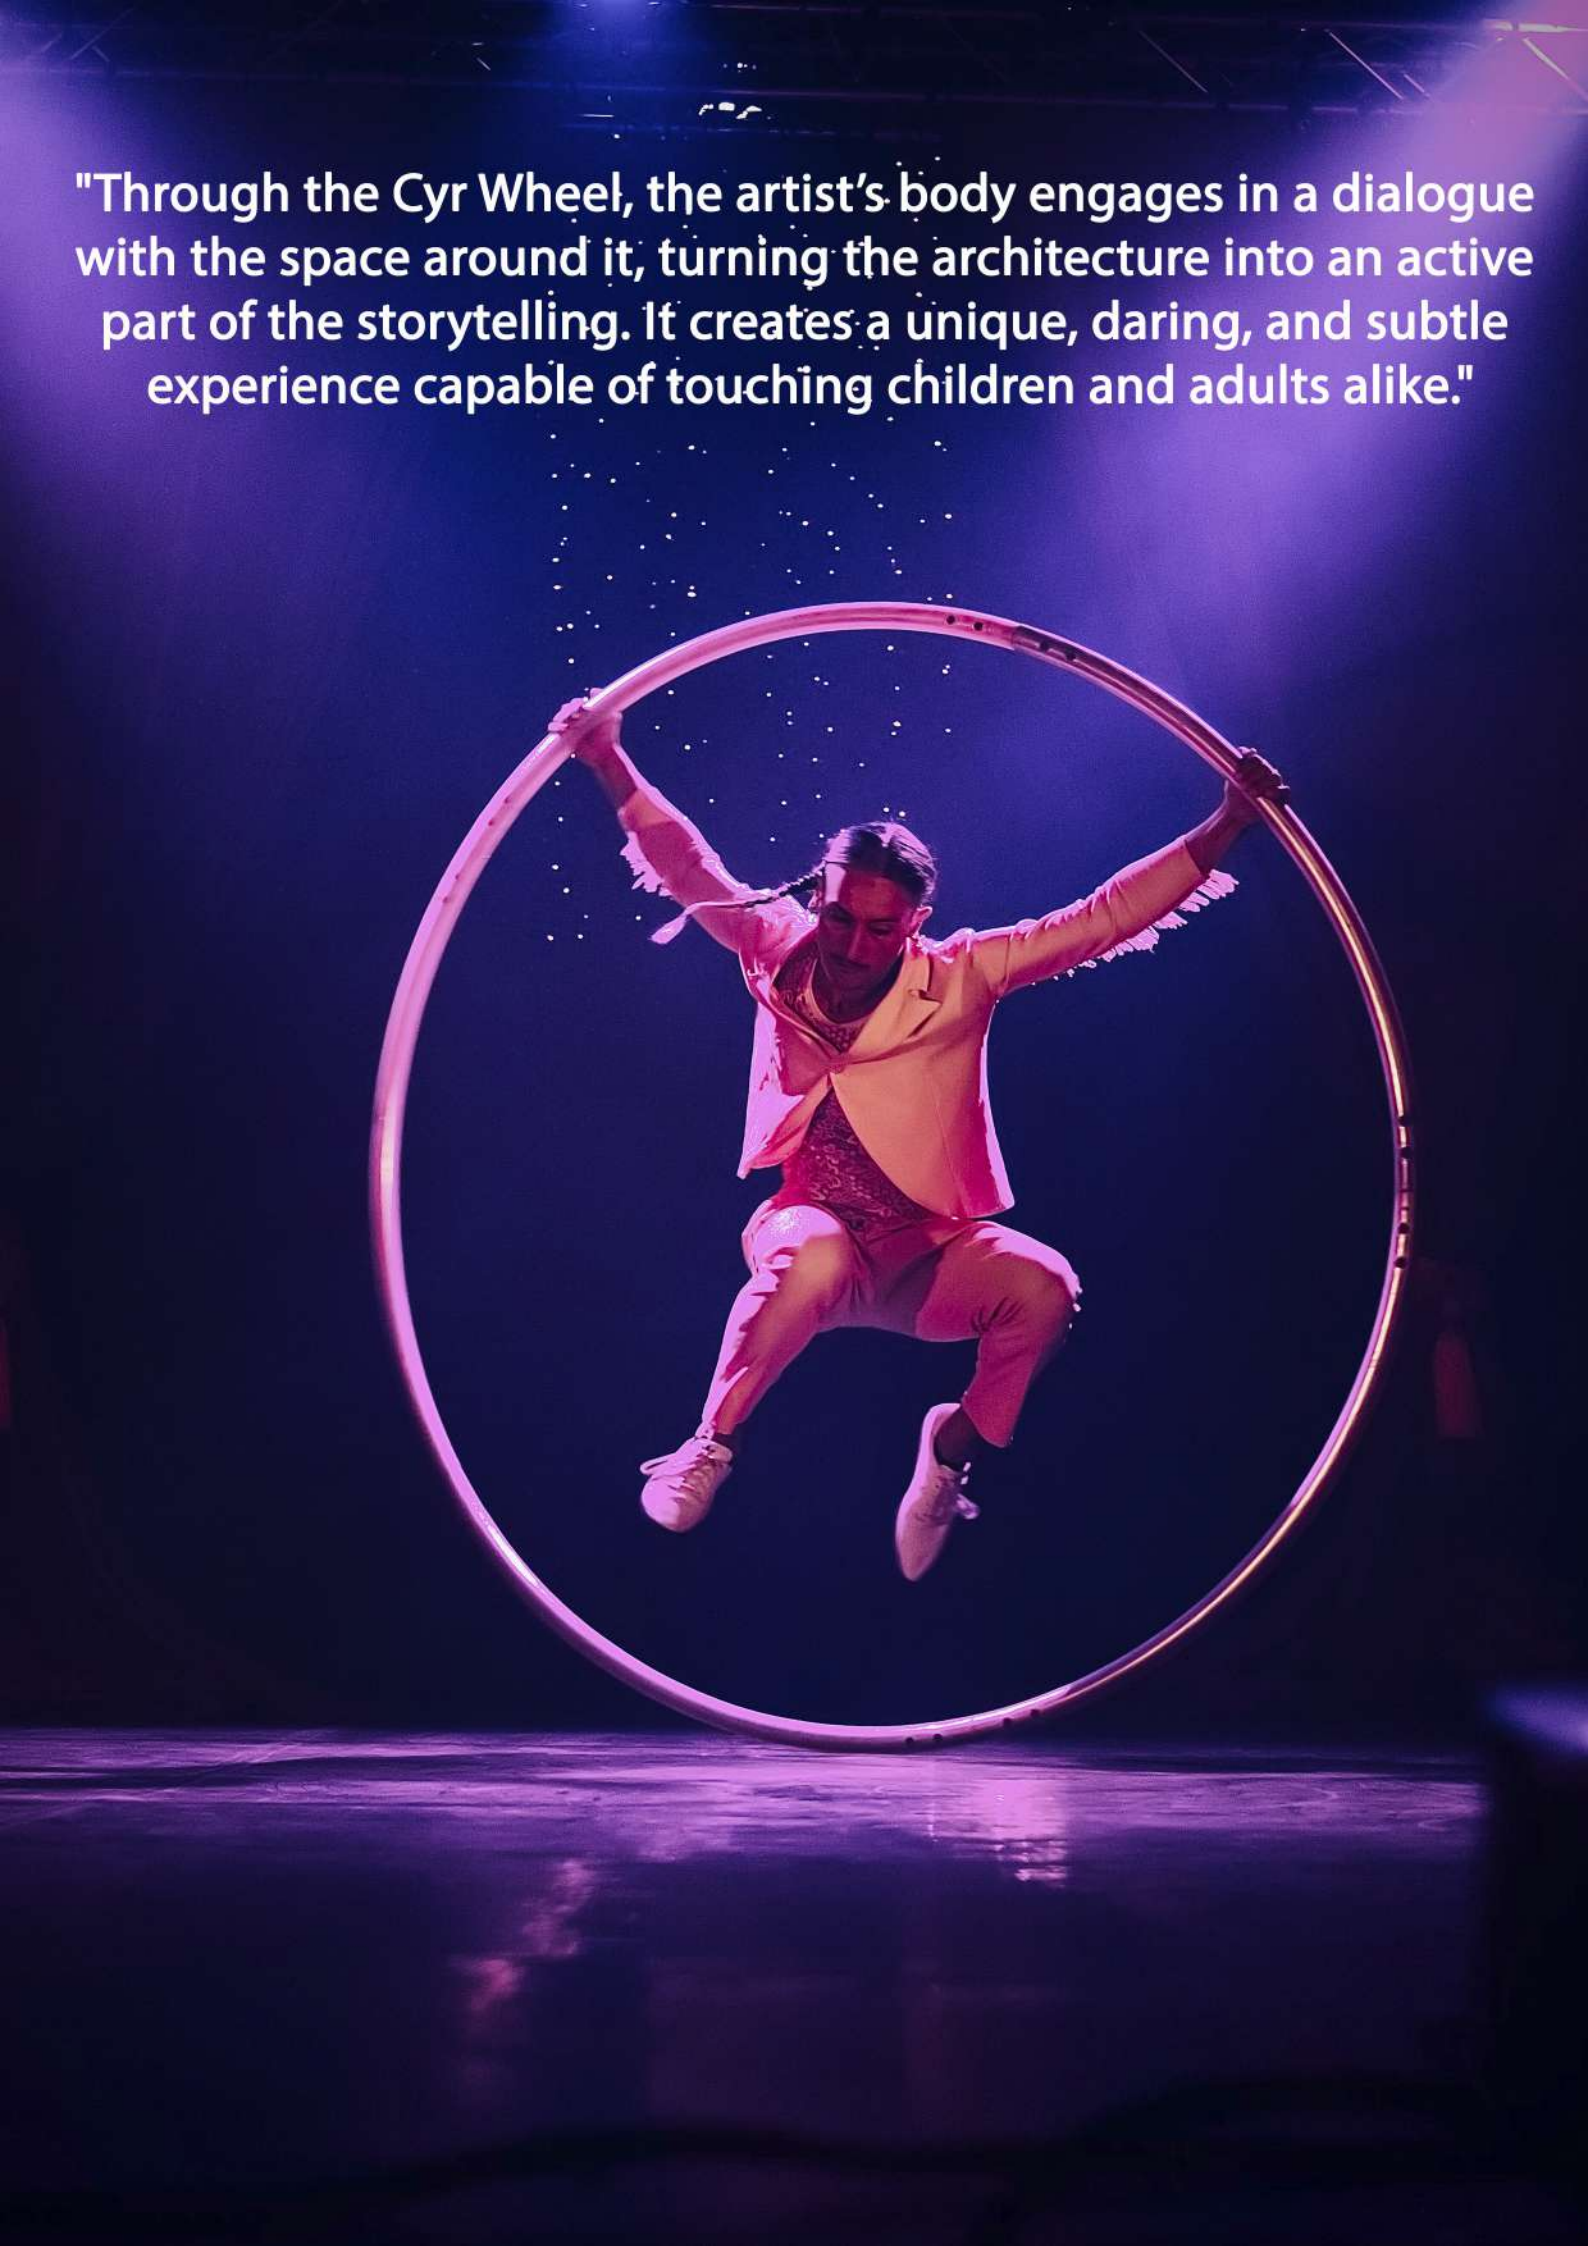

A reinvention of classic circus, where timeless thrill
meets the visual poetry of today.

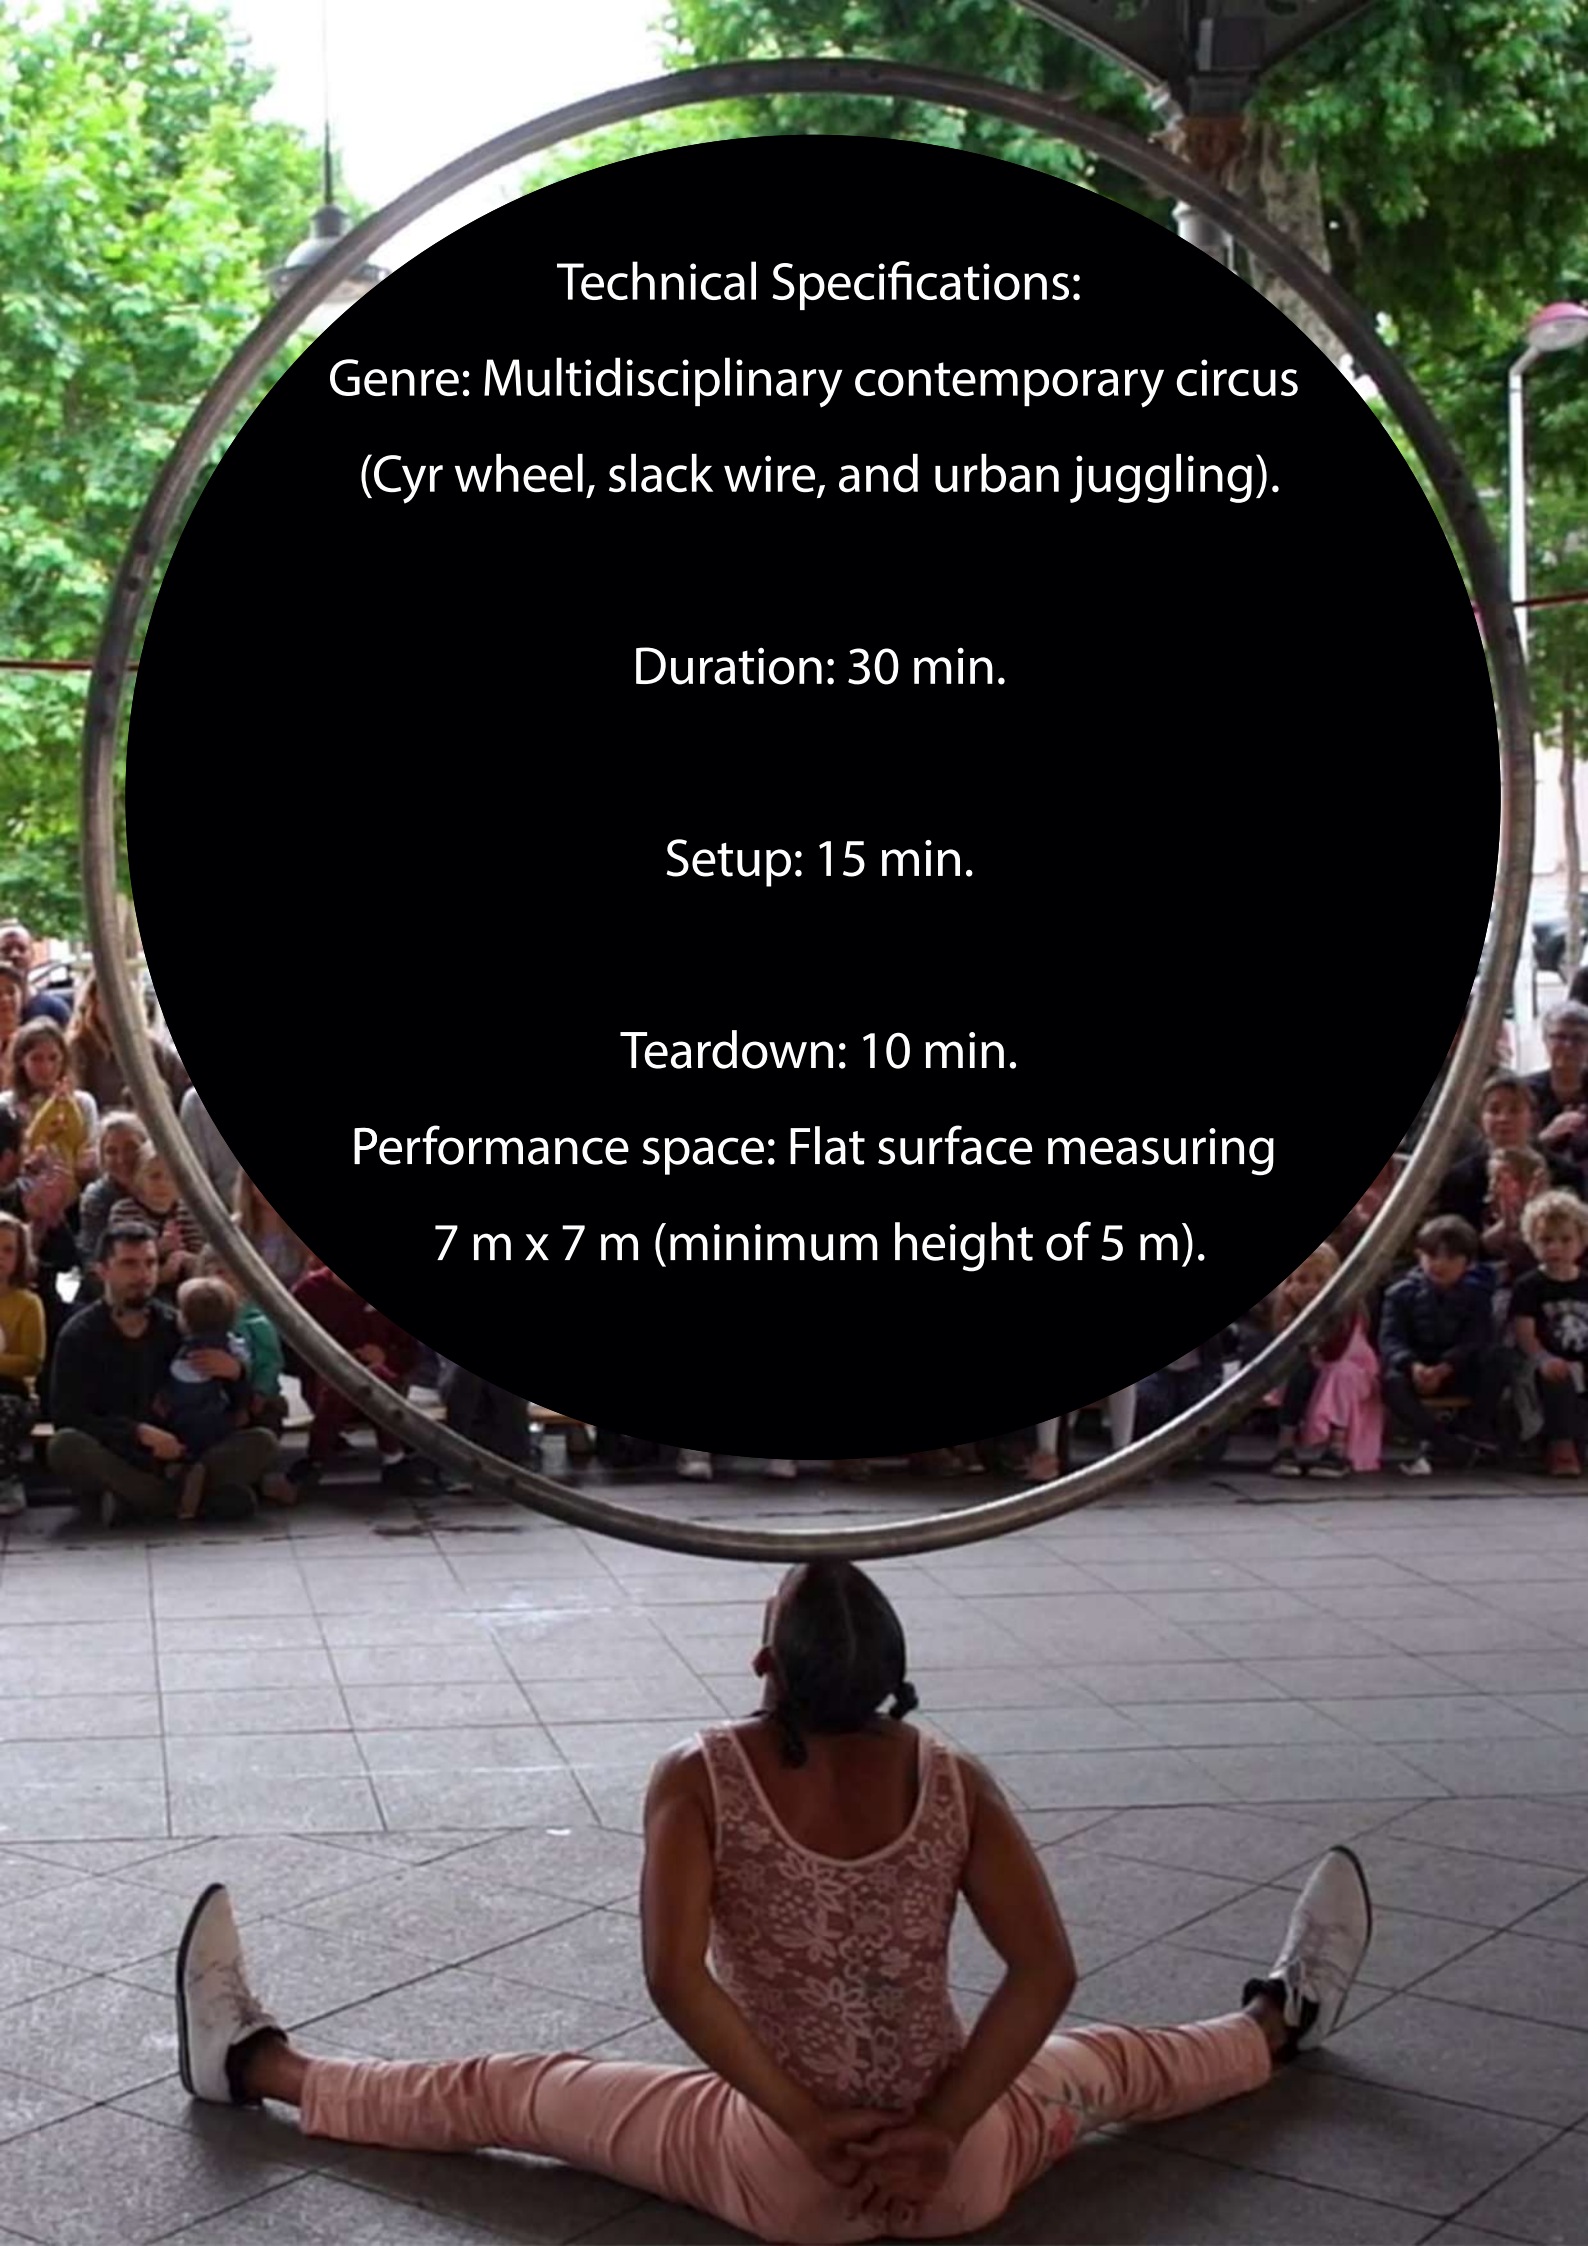

A "buscavidas" is not someone who has nothing,
but someone who knows how to find magic in every corner.
Traveling light with only a metallic structure, our
protagonist arrives to defy gravity and break the monotony.
Balancing the elegance of movement with the edge of the fall,

this show is an ode to those who dare to dance on a slackwire
and reinvent their own destiny with every turn..

"Through the Cyr Wheel, the artist's body engages in a dialogue with the space around it, turning the architecture into an active part of the storytelling. It creates a unique, daring, and subtle experience capable of touching children and adults alike."

Technical Specifications:

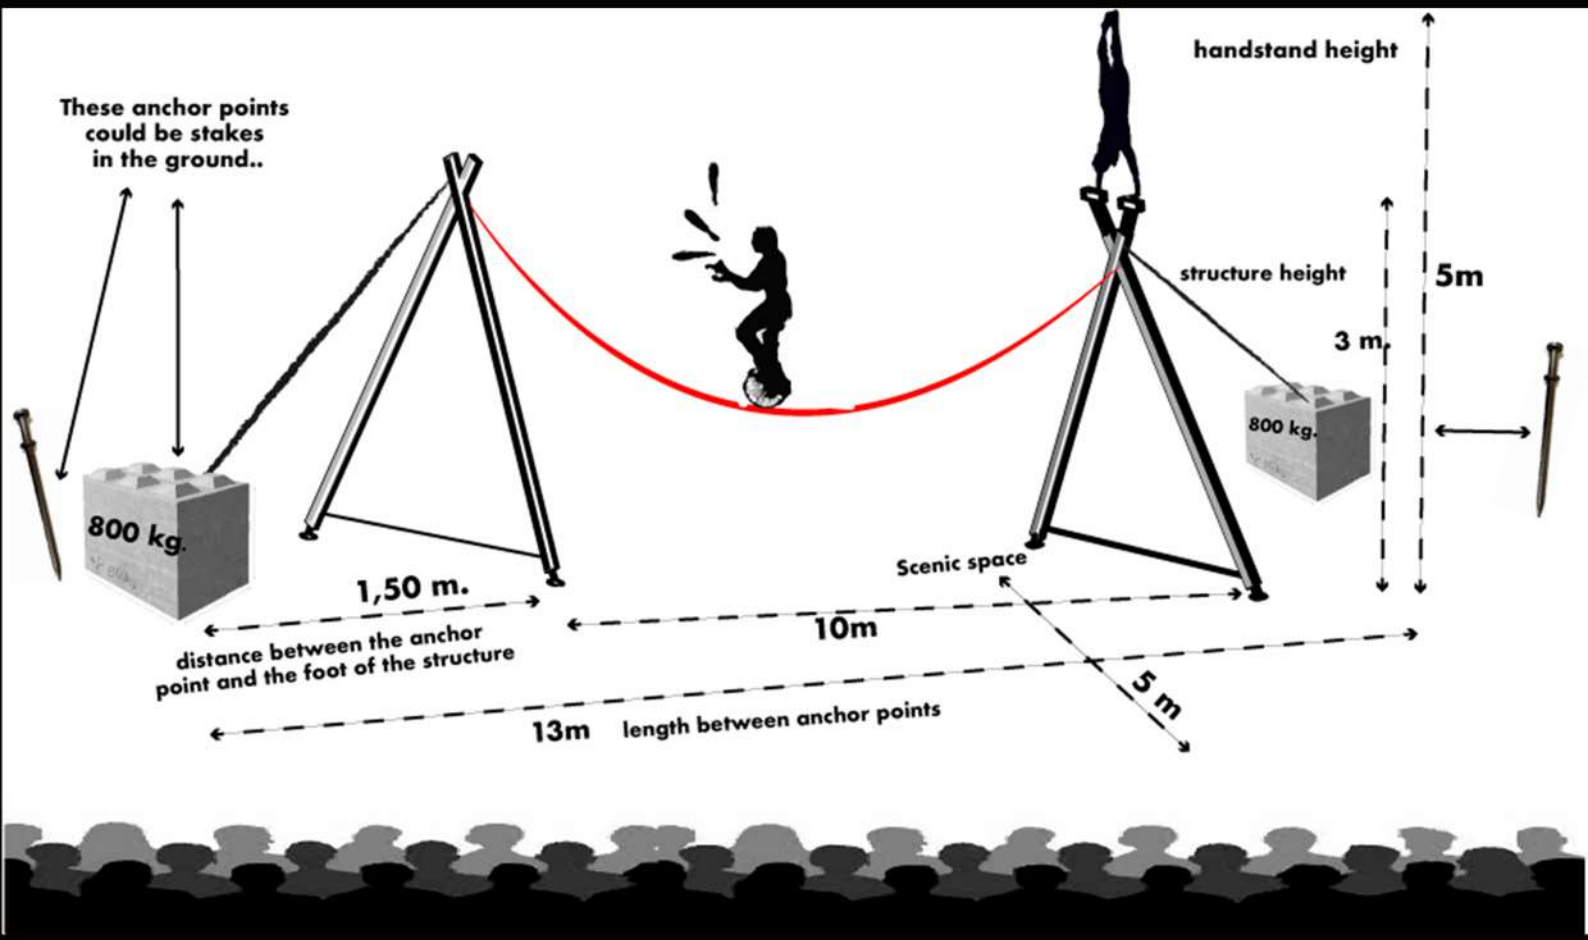

Genre: Multidisciplinary contemporary circus (Cyr wheel, slack wire, and urban juggling).

Duration: 30 min.

Setup: 15 min.

Teardown: 10 min.

Performance space: Flat surface measuring 7 m x 7 m (minimum height of 5 m).
